

DRUM & BUCKET HEATERS

DRUM HEATERS are one of the most popular lines of Powerblanket® products. The innovative design has changed the conventional method of heating materials. The design provides uniform heat to the entire surface of the drum, thus eliminating hot and cold spots.

PRO SERIES: Includes a thermostatic controller for optimal control which allows you to adjust temperatures from ambient up to 145°F / 63°C ($\pm 2^\circ\text{F} / 1^\circ\text{C}$).

RR SERIES: Utilizes the Rapid Ramp technology to quickly heat materials to a pre-set safe 100°F/38°C ($\pm 5^\circ\text{F} / 3^\circ\text{C}$).

POWERBLANKET® DRUM HEATERS:

- Work on both steel and poly drums
- Provide an insulated, full-wrap design
- Deliver safe, uniform heat to temperature sensitive materials
- Preserve expensive materials without overheating or burning
- Prevent product waste by safely maintaining consistent temperatures

NEW "SMART TECHNOLOGY"

- Three individual heat zones
- Heat when and where needed
- Automatically adjusts to varying fluid levels
- Highly efficient design to save energy and money

*Product Temperatures may vary depending on boundary conditions

5 Gallon Bucket Heater -- Rapid Ramp

55 Gallon Drum Heater -- Pro

Standard sizes include 55 gallon, 30 gallon, 15 gallon drums and 5 gallon buckets.

Other models, sizes and custom drums available upon request.

"Powerblanket® barrel and bucket heaters are a drastic improvement over the original band heaters we used to offer. With Powerblanket® products we no longer have to worry about overheating or unpredictable thermostats. Their GreenHeat Technology provides uniform heat throughout the entire barrel of product which is paramount to what we do. Powerblanket® products are very durable, look great, and are the only heaters we will offer our customers."
